SKILLS

Languages
• C • C++ • HTML • JavaScript• TypeScript

Framework
• React
• Laravel

OS
• Windows • Linux

Other
• Competitive Programming • Data Structures and Algorithm • Nodejs • MongoDB • MySQL • GitHub • REST API• Tailwind • Bootstrap• Material UI • Digital ocean

COURSES
• Data Structures and Algorithms.

RESPONSIBILITY

Executive Member of IEEE

• Participate and conduct various conference of IEEE.
• Set problem in coding contest organised by IEEE

Codechef MMMUT chapter

• Member Competitive Programming team and organised coding contest.

EXPERIENCE

SSPLLP | Full Stack Developer Intern
Aug 2022 - present | Remote

• Design client-side and server-side architecture
• Design and deployment of database
• Develop and manage well-functioning databases, applications and writing effective APIs

COFFEEE.IO |Front End Intern
Aug 2021 - present | Remote

• Responsible for supporting the teacher in planning and presenting lessons, and helping students learn
• Helping students in clearing their doubts
• Working with small groups of students to enhance the learning process and making sure that classrooms are safe and tidy

IMOCHA | Problem Setter Intern
Aug 2022 - present | Remote

• Responsible for creating problems based on data structures and algorithms
• Test problems created by other problem setters

PROJECTS

SHARK TANK Code | Live

• Tech Stack: React.js, Node.js, MongoDB, Express.js
• SharkTank is a leading platform on which investors (or Sharks) hear pitches from business owners who want funding from them.

CODING NINJAS Code | Live

• Tech Stack: Angular.js
• Coding Ninjas, Code Academy, Free Code Camp, edX are the top resources to help learn coding for beginners for free.

PORTEASE Code | Live

• Tech Stack: EJS, Node.js, MongoDB, Express.js
• A platform allows sellers to list and sell their products worldwide on international marketplaces, making Exim the global selling platform of choice

ACHIEVEMENTS

CODING PROFILE
• 4* on **Codechef** with max rating (2004). Profile

OTHERS
• Attended & successfully Submitted the Assignments of "11 Weeks Workshop on Data Structures and Algorithms" at **GeeksforGeeks**
• Qualified for **Flipkart Grid 4.0 Software Development 2022**
• Solved **700+ problems** in various platforms like CodeChef, CodeForces, At-coder, etc.
